WELCOME TO GENEVA

Dear Partners,

On behalf of the Geneva University Hospital (HUG) and the Swiss Society of Underwater and Hyperbaric Medicine (SUHMS), we are proud to invite you to the 50th Scientific Congress of the European Underwater and Baromedical Society which will take place from the 14 to 18 September 2026 in Geneva.

This is the second annual European Congress held in Switzerland and will take place at the Geneva International Conference Centre (CICG). The Swiss Confederation has an international reputation in the world of diving thanks to the work of Prof A. Bühlmann in Zürich. It is therefore an honour for our country to host specialists from all over the world to discuss the latest advances in our specialty.

The choice of Geneva makes perfect sense, being home to the only hyperbaric hospital facility in Switzerland at the University Hospitals of Geneva.

In 2026, colleagues from the five continents will join us to celebrate the Jubilee of our European society. We are planning on hosting more than 400 experts in the rapidly developing field of hyperbaric medicine and diving.

The success of such a congress depends heavily on the support of companies such as yours. We hope that you will be able to contribute to the realization and success of this congress and will consider the sponsorship possibilities detailed in this document.

Please do not hesitate to contact us for any further information or partnering opportunities. The official website of the congress is currently being created and can be consulted as it evolves at www.eubs.com.

We hope to welcome you in September 2026 in Geneva.

“Together, let's make this Jubilee an unforgettable event for the future of underwater and hyperbaric medicine.”
