DIVE WATCHES

Bühlmann Official Watch of EUBS50 - A Commemoration in Time

As part of the celebrations marking the 50th Scientific Congress of the European Underwater and Baromedical Society, EUBS is pleased to announce Bühlmann Watches as the official watch sponsor of the congress.

This anniversary also echoes another milestone in underwater medicine. Fifty years ago, at the University Hospital of Zurich, Dr. Albert A. Bühlmann conducted the pioneering pressure chamber experiments that would help lay the foundations of modern decompression science.

To commemorate this shared heritage, EUBS and Bühlmann Watches are offering registered congress participants exclusive access to a special 50th Anniversary Bühlmann Decompression 02 watch, featuring a dedicated EUBS50 engraving.

Reserved exclusively for attendees, this commemorative edition is available at CHF 3,590 instead of the regular CHF 3,990.

More than a timepiece, the Decompression 02 celebrates the continuity of decompression research—from the early experiments in Zurich to the international scientific community gathered today in Geneva.

If you wish to reserve your specially engraved EUBS50 Anniversary Limited Edition Decompression 02 watch, please go to <https://www.buehlmannwatches.com/buehlmannandeubs> and use promotion code EUBS50 at check-out.

We look forward to celebrating this milestone together at EUBS50 in Geneva.
